## Work Experience

---

- |  |  |  |
|--|--|--|
| <b>Freelance Software Engineer</b>   | <b>Freelance</b><br>Lagos, Nigeria               | <b>August 2024 – Present</b>           |
| <ul style="list-style-type: none"><li>• Developed a full-stack application (React, Node, PostgreSQL) that helps students to prepare for examinations. This enables the school to prepare students more effectively for external examinations while reducing costs.</li></ul>   |  |  |
| <b>Frontend Engineer (React/TypeScript)</b><br>Enterprise Solutions Team   | <b>The Loop</b><br>Coimbra, Portugal             | <b>December 2022 – August 2024</b>     |
| <ul style="list-style-type: none"><li>• Developed smart-city applications using transportation, weather, and geo-information APIs. This leads to easy commuting around the city, especially for tourists.</li><li>• Worked in a team to build an event reservation application. I built part of the landing page and most of the events selection feature. The application enabled participants (up to 30 thousand people in attendance, and over 50 participating organizations) for the event to better schedule their times for the events.</li></ul> |  |  |
| <b>Frontend Engineer (React)</b>   | <b>ColorElephant</b><br>Portugal                 | <b>September 2021 – December 2022</b>  |
| <ul style="list-style-type: none"><li>• Enhanced backend service built with Node.js to improve link previews by filtering user agents. This made it easier for users to better understand the locations/sites being previewed, better user experience and increased return users.</li></ul>  |  |  |
| <b>Frontend Developer</b>  | <b>Freelance Web Developer</b><br>Lagos, Nigeria | <b>September 2020 – September 2021</b> |
| <ul style="list-style-type: none"><li>• Built front-end applications for real estate, ERP, and online seminar platforms using React and Next.js.</li></ul>   |  |  |

## Education and Certifications

---

- **B.Eng. Mechanical Engineering**, Federal University of Technology, Akure. **2010–2015**
